MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 600 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent and to represent fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 279 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 6 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half-yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Secretary.

FIGHTING THE CONCEALED POISON. Look at the source, not at the symptoms. Remember that symptoms are the evidence of Nature's conflict with disease. They tell us that our animal powers are fighting the concealed poison. Aid and reinforce them with that genial and powerful restorative, Bristol's Sarsaparilla, and the result cannot be doubtful. No disorder, not organic, can resist such an alliance. The enemy is in the veins. There it is great deterrgent will find it, and thence expel it. That done, the cough that indicates consumption, the sores that denote the presence of scrofula, the terrible suffering of body and mind which accompany a diseased stomach, and an unnatural condition of the bowels, disappear. This pure and potent vegetable and antiseptic tonic and alterative cleanses regulates, and invigorates the whole internal organisation, and the cure is complete. By the use of Bristol's Sugar-coated Pills at the same time as the Sarsaparilla, the stomach and bowels will be cleansed and strengthened, and the disease more speedily thrown off. cj..a14

TUESDAY, APRIL 14, 1874

THE NEXT PRESIDENT.

Inaugural Speech to be delivered Oct. 12th, 1874.

Hon. Senators and Deputies of Congress.

In coming before you to take the oaths prescribed by the Constitution as President of the Republic I do so with the honest determination to respond worthily to the confidence reposed in me by my fellow-citizens, and with the brightest hopes for the destinies of the Republic, that are now confided to my keeping.

The passing excitement of the elections has quite subsided and the internal peace of the country is undisturbed. All classes of citizens have resumed their accustomed pursuits, and we are apparently entering on a halcyon period of security for the merchant, the agriculturist, and the sheep-farmer, that bodes well for the progress of the nation.

At peace with all foreign powers, our difficulty with Brazil having been satisfactorily settled by the convention which obtained your Legislative sanction under my predecessor, there is only one matter of international policy awaiting solution, the limits with Chile, and it is my pleasing duty to announce to you that a telegram has been received to-day from Washington to the effect that President Grant had appointed the rector of Hale College, Massachusetts, as arbitrator in the question. Since entering this hall I have moreover received complimentary messages from Her Majesty Queen Victoria, Marshal MacMahon, Pres. Grant, the Emperor of Brazil, and the Presidents of Chile and Uruguay.

Under such happy auspices it shall be my endeavor to forward the legitimate interests of the Republic by friendly relations with all our neighbors, and promoting the cause of industry at home under the shadow of security and a firm administration of the laws. The great influx of European immigrants, now reaching 10,000 per month calls for an improved land-system on more liberal principles, and with this view my Government will have the honor immediately to submit to Congress a bill giving free land-grants of 20 cuadras each, between the rivers Negro and Colorado, to adult settlers on application.

Another bill calling for speedy adoption is to prohibit any more railway concessions for at least five years. Besides 900 miles in actual traffic the national guarantee is extended to 2,000 miles that are being constructed or have been ordered by Congress. Most of these lines will be a burthen to the State for years to come, although the increased trade and facilities will fully compensate the obligations they impose on our exchequer. Meantime there is no necessity at present for any more lines, as it will take us about 7 years to complete those in hand.

The Philadelphia Exhibition which takes place next year will give the people of this Republic a favorable opportunity of making known to the world the inexhaustible resources and rapid development of our provinces. As you have already voted the necessary expenses under this head it only remains for me to express the confidence that the committee will acquit itself creditably in so important a trust.

As regards the diffusion of knowledge in the Interior by means of schools and free libraries I mean to continue the enlightened policy of my predecessor, and hope to see not merely San Juan and Mendoza, but all the 13 provinces lay claim to the reward offered by Congress for having one-tenth of the population attending school.

The interests of public health call for a Lazzaretto at Martin Garcia capable of accommodating 2,000 immigrants. The Port Captain will also submit a general plan of light-ships and buoys to improve the navigation of the La Plata and protect the trade of this great port.

Before the close of the present session the Minister will be able to submit to your Hon. Chambers the final report of Committee upon the proposed Bateman scheme, for a Harbor and deep-water Channel, so that this long-pending question may be despatched at once and for ever, whichever way may seem best to Congress.

There are some projects of minor importance which the new Cabinet will submit for your approval, such as a free grant of frontier-lands to the Anglo-American Frontier Protection Society, and the creation of some new Departments for the better despatch of public business.

In conclusion I have again to assure your Hon. Chambers that I will fulfil religiously the oaths I have just taken, and that I pray Heaven the same good destiny which guided Columbus on this anniversary to the shores of the New World, may conduct the Argentine Nation during my term of office towards the splendid future which its natural advantages, free institutions and progressive genius indisputably point out as the legacy of our fathers.

CENTRAL URUGUAY RAILWAY

DIRECTORS REPORT FOR 1873.

So many times we have been asked why the Co. does not declare a dividend that we answer once for all, because we are heavily in debt. Most of the land is yet unpaid for, from Montevideo to Santa Lucia, representing a value of £1,600 sterling. The owners are preposterous in their demands, one man asking £15,000 compensation, because he had intended starting a cloth-mill on a piece of ground we took. Near the city their demands are even worse, asking in one case 70 times the fair value, in another £300 per acre. We mean to deposit a sum of money in court to meet all claimants. About 4 miles are paid for, en route to Las Piedras, and the rest unpaid: the limits are often badly defined. We also owe £8,000 for site at Bella Vista, and the contract for filling up the Playa forced on us by the late Government has cost us a loss of £30,000. As soon as the line opens to Durazno we shall commence to give dividends, subject to a drawback of £3,000 per annum, sinking-fund for Waring's bonds of £300,000 for prolonging the line from Las Peidras to Juan Chaso (Santa Lucia). The 5,000 shares held by Government earn no dividend till the profits exceed 7 per cent., on £10,000 per mile.

The Government in paying its guarantee on the capital refuses to include the 2,800 shares fully paid-up of its own, and by lawyer's advice we have allowed them to deduct as they did last year the item of 50,160 dollars. We could not do otherwise without delaying the usual remittance to London on the bonds of £300,000, held by Waring.

Mr. Du Pré having resigned we appointed Mr. Chamberlain to succeed him, saving 300$ a month for the Co. Mr. George Cooper of Buenos Ayres having inspected the line most of his suggestions are being carried out, and we have sent to London for a tea-service to be presented to him, as he refused any remuneration.

The workshops at Bella Vista requiring a larger area, as recommended by Mr. Cooper, we bought 20,000 square varas (say 4 acres) for 46,000$ (say £9,800 sterling) alongside the wharf and branch-line for landing materials. At Florida we bought 19 cuadras (say 38 acres) at 40$ per cuadra; at Beñaran 1755 cuadras for the sum of 13,000$. Any surplus not required for stations can be sold at a profit. Between Florida and Durazno we also bought 175 cuadras at 7½$ per cuadra, say 18 shillings per acre. Nearer to Durazno we are unable to get the site for a station, and Waring Brothers offer to deposit in our hands the cost of same. At Durazno only one man would give us land, and after much trouble he came down from 200 to 50$ per cuadra. If the shareholders do not approve of these land-purchases the Directors will take them for their own account, meantime we have borrowed the money from the Banco Comercial on the titles.

In Messrs. Waring's account of £300,000 we find £18,000 paid by order of the late Senen Rodriguez for commissions, including £12,000 to one Mr. Scrimgeour, whose name is new to us; this charge for omitting £300,000 seems excessive, as a letter from London says "our friend of the G. Southern Railway and London and River Plate Bank did more in the matter gratuitously than the gentlemen who figure for such high commissions."

We find, moreover, that Warings charge £2,542 for law expenses in getting rid of the old board of Directors, but this charge seems wholly unauthorized. We know that when Mr. Drabble was here he had three or four consultations with Dr. Ramirez, the legal adviser of Warings, but the Board has no idea of admitting this charge, which is more than the annual salary paid by Warings to Ramirez. We suppose the Warings will abandon this claim.

Mr. Consul-general Soto, in London, has advanced an absurd pretention to have all the shares that are held in London, countersigned by him at a high fee. It seems that he succeeded in enforcing this pretence with the North-western, Salto and Santa Rosa shareholders, but we resisted any such imposition.

Several complaints are heard about the number of curves between Santa Lucia and Durazno. Mr. Cooper says that, of 88 miles there are 42 in curves, some having only 330 yards radius. In November, 1872, Mr. Du Pré wrote on the same subject, but is now of opinion they offer no serious danger. Meantime Mr. Brunlees, of London, having accepted the line with its present curves and inclines, and our Resident Engineer having also approved, we can make no opposition. If subsequently the working be found difficult we have only to alter at our own expense.

Our Resident Engineer complained to Mr. Brunlees of the quality of locomotives sent out by the Warings for the Durazno extension, but that gentleman replies in an evasive manner; to the effect that heavier locomotives would be too heavy for our rails. This causes us to burn five times as much coal as in Buenos Ayres, and as Mr. Brunlees had no right to make the rails so light for our traffic we have begged the London Board to dismiss him.

A lawsuit has arisen with Fynn and Martinez about filling up the Playa at 45 cents per cubic metre; the matter is under arbitration by Dr. Garcia Lagos.

As regards the dispute with the townfolk of Florida, it is true the station is a mile distant, but the Fiscal has reported in our favor.

The earthworks for the Central Station at M.Video are completed, and a shed for goods and passengers to cost 15,300$, will be finished in six months.

Waring Brothers asked 10,000$ for a carriage depot at Bella Vista, but we are building it for 6,350$.

Mr. Van de Velde having offered $5,000 and 4,000 square varas (say four-fifths of an acre) if we allowed him to have a railway station built at his own cost at Viale we accepted his offer.

The section from Santa Lucia to Florida has been inspected by Mr. Honoré, and is ready for traffic as soon as the Government wish. There are not enough stations, and the question of locomotives is still open.

The accounts for the year will be found in the report of the notary Areco, and in conclusion the Board reminds you that all the Directors have to retire, but are re-eligible.

C. GUERRA,
Chairman.
THOMAS TOMKINSON,
Secretary.

LATEST FROM BRAZIL.

Rio Janeiro, April 4th.

The trial of the murderers of the unhappy Langloris continues, and some of the evidence is said to implicate his wife, who is supposed to have had illicit relations with the principal assassin.

The Imperial Government has approved the transfer made by the Western and Brazilian Telegraph Co., to the Telegraph Construction and Maintenance Co. Limited, of the concessions held by Sir Charles Bright. A decree dated Feb. 7th also empowers the last-mentioned Co. to prolong its sub-marine cable from Pará to Guiana.

Yesterday being Good Friday the Emperor as usual pardoned or commuted the sentences of several criminals. The slave Antonio Ferreyra who has been at the galleys 39 years, for murder, received a pardon. Miguel Araujo after 9 year's hard labour for the same crime, is also liberated. Sebastian Ramos, after 23 years; José da Silva, after 7 years; the slave Justino, after 4 years; the slave Domingos, after 18 years; George Blackburn, after 4 years; the slave Gregorio, after 31 years; the slave Gaetano, after 27 years; the slave Francisco after 16 years; Maria Texeira after 7 years; Joaquin Paz, after 19 years; the sisters Ribeiro after 12 years; the slave Simfronio after 21 years; Severo Silva after 14 years; José Calvalho after 6 years; Miguel Soares after 2 years; Antonio Santo after 2 years; and Francisco Fidelis after 12 years; all for murder, have been pardoned and set at liberty.

Count Koskull, Russian Minister, arrived yesterday from Europe per Sorata, to resume his post at this court.

Monsignor Sanguini, Apostolic Nuncio, has been removed to Lisbon, and will be succeeded by Monsignor Manutelli, hitherto Nuncio in Ecuador.

EDITOR'S TABLE.

The Royal Mail steamer Boyne, Captain Reeks, sails this afternoon with mails and passengers. A host of old friends and subscribers leave in this favorite steamer. We wish them all a pleasant and speedy voyage, and hope to see them back in the River soon. Amongst those going we note the names of Dr. and Mrs. Ayer and family (the Doctor will return in November) Mr. John Murphy, of Balbriggan, Messrs. Bracht, Rodius, Ropes, Tormey, and several sons of wealthy Irish sheepfarmers, all bent on pleasure in the Old World.

The first news in town yesterday morning was the arrival of the Brazilian ironclad squadron, which is now lying at anchor off Colonia. The imperial vessels had been practising off the capes for some days. A nervous broker, on hearing of the arrival of the fleet, asked us how far those iron monsters can throw a ball. We are almost as ignorant in naval matters as a First Lord of the Admiralty, so can't say; but as the squadron has not come down with the intention of throwing balls at anything or anybody but its targets, we suppose it does not matter much what the range of its guns may be.

The elections are over, 'Dieu merci,' and so far as we can learn, nobody has been hurt. There was a little shooting, a kind of 'feu de joie,' in some of the parishes, and a great deal of shouting in all; but the eventful day passed off much more quietly than was anticipated. As usual, both sides claim to have won, so we must wait for the official returns to know who is to be our next Chief Magistrate.

The paintings on ivory, to which we referred on Sunday as brought out from England by Mr. Corrales, the well known wool broker, are on view at the mart of our friends Messrs. A Bullrich and Co., Calle Potosi, not at Mr. Billinghurst's office as we stated. From Billinghurst to Bullrich is but a step: they are both good men and true.

There are a great many Montevideans in town just now. They all look pretty well, and seem to be recovering from their attack of extreme funk about the cholera here. They anticipate that the effects of the big failure down there will pass gradually away, as the banks are helping. President Ellauri's Administration is very favourably spoken of by all, and if the Jones Loan be launched, a period of active business and prosperity is confidently anticipated.

We feel much pleasure in informing the friends of Mr. H.M. Kinworthy, who lately applied to us to seek information of his whereabouts, that we have received a letter from him. He is in the best of health and spirits, and can be communicated with 'care of Messrs. O'Gorman & Co., Guardia del Monte.'

There was quite a sensation in Calle Florida yesterday, caused by two "mitrailleuses" and the same number of Krupp steel field guns on their way to the Retiro. They were in the Government House during Sunday, in case the disorderly at the elections might require their services. The "mitrailleuses" are ugly looking instruments, and a sight of the Krupps gives one a cold feeling about the spine, and an inclination to get round the nearest corner as quickly as possible.

The confession of Charles Orton, brother to the fat rascal who made such a bold attempt on the Tichborne estates, is published in the last London papers to hand. Although a regard for truth is not a prominent characteristic of the (H) Orton family of either sex, and Don Carlos has been known, we believe, to vie with Don Arturo in the perjury way, his story hangs so well together, and fits into so many dubious points in the evidence, that few can refuse to believe it, or that the Great Trial has not fully vindicated Justice.

Mr. Lord Mayor Nazar has addressed a pathetic note to Governor Acosta, telling him that the last days of Pompeii are at hand, and the General Smash which H. E. was good enough to predict for the Municipality imminent. The food contractors for the Hospitals and Prisons refuse longer credit; crowds of duns of every degree, dustmen and doctors, peons and purveyors, green grocers and black-pudding men, clamour for payment every day, yet there is not a brass rap in the Municipal Treasury to pay them, and the poor Lord Mayor and Secretary are nearly driven mad. 'Call again to-morrow and we'll tell you when to call again' is the answer to all applicants. "To-morrow, and to-morrow, and to-morrow creeps in this petty humbug from day to day, to the last syllable of recorded 'tick'" respond the Great Unpaid, but in vain. To make matters worse the last gale of interest on the Municipal Bonds, guaranteed by the P. G., is also over due.

The great trotting-match or Tilbury race comes off to-morrow at Belgrano between Messrs. Varela and Mendez for $50,000.

The *Progreso* of Cordoba says that Dr. Avellaneda and some of his political friends intend to pay that city a visit shortly.

New illustrated papers are the order of the day. Last week we had the first number of the London *Dramatic News*, and we have now the pleasure of calling the attention of our readers to the *America Ilustrada*, a paper published in New York, in Spanish, by Don J. C. Rodriguez. This is one of the best illustrated papers we have yet seen in Spanish, engravings, type, paper and reading matter being all unexceptionable. The numbers before us (January 1st and 10th) contain splendid wood-cuts of Martin Luther, Ruth in the Gleaning Field, Christ Walking on the Waters, Ruins of Juno's Temple at Pompeii, President Tejada of Mexico, George Sand, etc. The *America Ilustrada* is published three times a month, and the price of subscription is only $125 m|c. per annum. We particularly recommend the new paper to our Argentine readers. Mr G E Wilkinson is the agent in this city: and subscriptions will be received at the well known library of Mr Hibbert, in Calle Florida.

Our city article in this issue contains most interesting data (from the *Investor's Manual*) on the amount of foreign capital invested in the River Plate. Although Brazil owes more money to the foreigner than we do, she pays less interest and amortization annually. It must be remembered, however, that the empire was long before us in the borrowing field, and her credit stood high in Lombard-street when Argentina was still in her financial teens.

'Sweet Auburn' gets to be a hotter corner every day. A tramway car was fired into on Saturday night, but nobody killed. The traffic is falling off terribly. It seems utterly absurd that the police cannot at once put down this roving banditti with a strong hand: if something effectual be not done at once by the authorities, the unfortunate people of Flores must appeal to Chief Justice Lynch and the nearest kerosene lamp post. There is nothing else for it.

The *Capital*, of Rosario, mentions that a project is on foot to start a large steam flour mill at Carcarañal. The colonies are now producing so much wheat that there is every chance for such a concern.

"Rib fever' is now very prevalent in the departments of Cordoba, according to a colleage up there. Rib fever!! Does this mean a popular tendency towards getting spliced?

Dr. Luis L. Dominguez, Argentine Minister to Peru, before leaving Montevideo in the Sorata for the West Coast, addressed a letter to the War Minister expressing his thanks for the attention he and his family received on the passage from this port to the Mount from Captain Urtubey and his officers of the war steamer Brown.

An enormous 'pozo' was discovered a few days ago in Calle Belgrano, near the old STANDARD Office, while pipes of the new Gas Company were being laid down The moment the workmen hit on it there was a cry of 'look out for the ounces, boys, we're near old STANDARD Court, and they may have forgotten some of the shiners when moving!' Up to a late hour last night, however, not even a brass farthing had turned up.

The Silex sailed for Montevideo yesterday evening so crammed with passengers from stem to stern that many of those who took passage in her expected to have to sleep on their thumbs, as berths were not to be had, even at an extravagant premium. The traffic between this and the sister port since quarantine was abolished has been tremendous.

There was a 'bola' afloat yesterday as to a row between our Government and that at the Mount about the seizure of a vessel, the non publication of some quarantine decree, or some similar rubbish. If this sort of nonsense were not kept going from time to time in these regions, Foreign Ministers, Consuls and the whole tribe might 'shut up shop.' It helps the ink manufacturers.

"When a clergyman remarked that there would be a nave in the new church the society was building, an old lady whispered that she 'knew the party to whom he referred.'"

"It is reported that Professor Agassiz having stated that Niagara would run dry in about nineteen centuries, the hackmen at the Falls immediately raised their fares.

The *Tribuna* says there will be an official inauguration of the City Improvement Works next month. No fewer than 20 cargoes of materials are on the way out from England, and 400 European navvies for the works landed last week.

The Victoria Theatre will re-open to-morrow or next day. It has been splendidly fitted up and decorated, and is now a credit to the city.

A bourse in the Normal School at Parana has been refused to a young gentleman named Tarragona, because he took some part in the recent Jordan revolution in Entre Rios. Quite right.

Don John McMahon (there can be no doubt as to what island Mr. Mc. hails from) is warmly recommended by influential parties for the Chair of English in the new National College of Rosario. The *Capital* mentions a silly rumour afloat in Rosario on Saturday night to the effect that some regiments of the Line had been tampered with and would join a revolution to break out simultaneously in B. Ayres, Cordoba, Santa Fe and Corrientes on Sunday last. Really nothing seems too absurd to be swallowed when electioneering is in question.

Our latest advices from the Cape of Good Hope announce business in imports and exports dull. Considerable stock of wool, hides and skins, but little demand. Maize has fallen from 21s. to 19s. Gold and diamond fields pretty much the same. Oxen for slaughter worth £12 at the fields.

The amount of notes converted in Montevideo up to the 9th inst. was 5,752,432. No wonder they want small change down. The late President Berro's widow has applied for a pension, and it is thought it will be granted.

"Alas, poor Turmeau!" This distinguished caterer was robbed of every mortal thing in his establishment in Calle Maipu on Saturday night. The robbers got in by means of a skeleton key, and poor Turmeau looked like a skeleton yesterday on the strength of it. The rascals made a clean sweep of tea, corned beef, Everton Toffy, Sauerkraut, sausages, red cabbage, mince pies, plum-cake, pig's head, and a Connecticut wooden clock seven feet high; in fact, the accumulated treasures of years were carried off. We are grieved to add to the list a Martini-Henry rifle of great value, left with Mr. Turmeau to raffle by Mr. Greaves, of Flores.

A man having a cock that was much given to crowing by night as well as by day, gave him the name of Robinson. The reason was because Robinson Crusoe.

TICHBORNE CONFESSIONS.

The candour of Mr. Charles Orton in laying his confession before the public has found imitators both within and beyond his own family circle. Mrs. Robert Jury and Mrs. Pittendreigh send their several statements this morning to the *Daily Telegraph*; the former to contradict that of Charles Orton, and the latter, so far as it goes, to confirm it. Mrs. Jury contents herself with giving a simple denial to the principal allegations of her brother. Charles admits, as she observes, that he is not on good terms with his sisters, and they on their part can 'give good reasons for this feeling, not the least of which is his conduct in having lent himself to be the associate of detectives and others, in sending into penal servitude for fourteen years a gentleman whom he knows to be no more his brother Arthur than he is himself, and which he has done simply for money, being too lazy to work for his bread.' For the rest Mrs. Jury gives a direct denial to to nearly all Charles's assertions in detail. She did not, she says, see the Claimant's child and exclaim, 'Lord! what a regular little Orton.' Arthur had no twitching of the face. He was tattooed, and he had been severely bitten by a pony; neither Mrs. Jury nor her sisters ever had such a thought as that the Claimant 'in giving help to members of our family did it as a bribe, or in any way to influence us. We felt it was nothing but a kindness to the sisters and brothers of his former companion in Australia."

Mrs. Pittendreigh's 'piece justificative' is a much longer and more circumstantial document, and contains many facts—if we may so provisionally describe them—of curious interest. It dates from the period when Mrs. Jury first offered herself as Mrs. Pittendreigh's lodger, 'shabbily dressed in mourning,' and whom Mrs. Pittendreigh at first thought to be a domestic taking rooms for her mistress. 'When I found they were for herself, I said, 'The rooms are £1 5s a week. Is not that too much for you?' 'Oh, no,' she replied; 'I can give you a reference to Baron Tichborne, to whom I am related, and he will see your rent paid.' Shortly afterwards came the visit from Charles Orton, already described in that gentleman's confession. Mrs. Pittendreigh confirms his account of his own conduct at the interview, while giving a very different version of her own. She got him, she says, to write down his statement that he knew who the Claimant was, saying that she would communicate it to her husband's employers, or would tell her husband when he came home. On Mrs. Jury coming to make final arrangements for the lodgings, she showed her the written statement, and that lady on seeing the handwriting, 'turned deathly white,' and recommended Mrs. Pittendreigh to 'keep quiet,' and she would let Baron Tichborne know as quickly as possible who had been there, and that Mrs Pittendreigh would very likely hear from her. The next day Mr. Carter called, and Mrs. Pittendreigh was then asked to communicate by letter with the Claimant, and received from him a few hours after the first letter of their interesting correspondence. She then paid a visit to 'Baron Tichborne,' who opened the door to her himself, 'a strange action,' as she thought, 'for a baron,' and to whom, according to her own account, she very frankly communicated her conviction that he was one of the Orton family. The Claimant then engaged her at a guinea a day to instruct his wife in reading and writing, and on going down again shortly after-

wards to assume her functions as governess she had an interview with the Dowager Lady Tichborne, the details of which seem to show that the poor old lady was then in a condition of painful doubt and uncertainty.

I said to her. 'My lady, has your son told you of the man who called at my house saying that your son was his brother?' I thought the old lady seemed fearfully agitated. She said, 'Wait awhile.' She opened the dining-room door, looked up and down the passage, shut the door, tried the handle to see that the door was closed firmly, seated herself at my side on the green couch, and told me to tell her all. I told her, as briefly and truthfully as possible, the circumstances connected with Charles Orton's visit to my house, and that her son knew all about it, as he had offered me money for the written statement Charles Orton had left behind him. She cried fearfully, and said, 'Madame, do you think for a moment that my son is deceiving me?' I said, 'If he is your son, how can he deceive you? And why is it any interest to him to offer me a bribe to keep me quiet?'

Shortly afterwards Mrs. Pitten dreigh remarked to the Claimant that he would have to account for the ring his father gave him as a keepsake; upon which the Claimant asked her to find out for him what sort of a ring it was, the colour and device of the stone, and the maker's name, and she promised to do so. In answer to a subsequent question of the Claimant, Mrs Pittendreigh said that whatever the public opinion of his case was, 'mine is this, that you are an adventurer.' At this the Claimant laughed, Mrs. Pittendreigh thought 'hysterically,' and drank nearly a tumbler of brandy, which seemed to have no effect upon him. On her return she resolved—a little late in the day perhaps—to "sift the case for herself," and as a result of this determination put herself in communication with the solicitors for the other side. She mentioned to Mr. Dobinson the conversation about the 'mythical ring,' and that gentleman advised her to write as though to ask for her payment as governess of the Claimant's wife, 'but in reality to write about the ring you mentioned; and as it never existed, if the Claimant catches hold of your statement, and is misled by it, then he is an *impostor*.' She acted on Mr. Dobinson's advice, with the result that the Claimant gave a full, true, and particular account of the imaginary ring when in the witness-box, and that Luie afterwards described it with equal minuteness, having seen it on the Claimant's finger when he washed him, 'and the moment I read that,' says Mrs. Pittendreigh, 'I knew Luie was a villain.' Mrs. Pittendreigh passes with a light touch over the business of the 'fictitious letters,' merely remarking that she wrote a 'sharp letter to Mr. Dobinson when these documents were produced at the trial 'to say he should do nothing to hurt me, as I served the cause of truth and justice.' This is the only thing wanting to the completeness of Mrs. Pittendreigh's story, and, perhaps, as frankness is so much in fashion, she will be kind enough to supply it.

BRITISH HOSPITAL.

To the Editors of the STANDARD.

Gentlemen,

After reading the account of the British Hospital meeting in your edition of the 12th inst, I am stirred to make some remarks.

It is stated that Mr. Urban Smith had ably filled the post of Treasurer for the last two years, which is not correct, as during the greater part of 1872 and up to March 1873 I held that position.

Upon taking charge of the books of the institution I found nothing to shew me what the resources of the Hospital were.

There was no Ledger, only a Cash Book. After some enquiries I found there were such funds as the Dick and Brown legacies, but there were only slips of paper to shew that the value of same had been deposited in the London and River Plate Bank, but this state of things was hardly to be wondered at considering the unseemly squabbles that had been going on for some time, and which must have taken up most of the time of the previous Committees.

I at once started a Ledger, and opened Capital and other accounts, and presented a statement to the Committee, shewing the total amount of funds held at their disposal.

It was then, and had been considered that the present Hospital building was unfit for the use it was applied to, and that it was costly to keep in a state of repair.

Seeing that the land it stood upon was of great value, it was thought it could be sold to advantage, and another site purchased at a less price, where a more suitable building could have been erected.

With this idea several of the Committee made various excursions to find a piece of land adapted to the purpose.

Messrs. Frazer and Bell had the land at Caballito for sale, and Mr. Leighton Jordan, our Secretary, but their broker, sold it to the British Hospital. I questioned the delicacy of this proceeding at a Committee meeting.

I opposed the purchase simply because I could see it would lead to no immediate removal of the evils the Hospital was suffering from; it was quite a speculation investment; would be a great loss in interest, and unsuited for fever or cholera patients, as there was actually no proper road to the place.

To strengthen the resources of the Hospital, seeing how much the Bazaar had yielded, I recommended that charitable affairs of this kind, either in amateur theatricals or a ball, should be held every year, by which not only would the reserve fund of the Hospital be increased, but the British community would on one occasion be drawn together.

The Committee, however, were too much taken up with some lengthy Code of Rules, which I see has actually been presented to Her Majesty's Government for approval, and which will no doubt meet with all it deserves from that quarter.

Seeing how impossible it was to oppose the views of the eccentric gentlemen who formed the Committee, so enthusiastically led by their Secretary Mr. Leighton Jordan, and so blandly presided over by their Chairman Mr. Barclay, I was glad enough to take advantage of a likely visit to England to retire from the Committee.

I am of opinion that if the Committee had been more businesslike in their views the supporters of this noble institution would have now seen a complete and elegant building erected, replete with every new improvement for Hospital purposes. Now, alas! they can only gaze upon the old and crumbling edifice of twenty years ago, and a wild stretch of almost inaccessible cabbage land in Caballito, as representing the wealth of the British Hospital.

I am, gentlemen,
Your obedient servant,
H. K. TROTMAN.

ON 'CHANGE.

April 13th, 1873.

Ounces	400
Sovs	122½
Pats	25
Nat. Bonds	79
Cedulas	83¾

The stock market to-day ruled most dull. The bears looked for a heavy fall in the stock, owing to a well known holder on Saturday afternoon beginning to sell, but there was no pressure on the market, and although there is no let up to notice still the Cedulas hold their own.

The news of the market to-day were the very large transactions in real estate. Mr. Mendez has resold the premises in Calle Maypu for $2.350,000, which he bought at the Mortgage Bank sale about a month ago for $2,130,000 m/c.

The magnificent property of Mr. Rom at the corner of Calles Cangallo and Reconquista known as the 'Pasage Argentino,' has been sold by Mr. Rom to Mr. Nicholas Anchorena at reserved rates, said to be 4½ millions, of which 3 millions cash, and the balace on credit.

The sales to day were—

Cedulas.		
For cash	9,200	83¾

do	5,000	83¾
For end month	10,000	84
do	20,000	84½
do	160,000	84⅝
do	30,000	84

In the liquidation very little done. A few cash sales at 83¾, and for end of month 84. Market flat. Many brokers anticipate a hard liquidation on 15th inst.

Exchange rules flat enough. On England 49⅛ takers; on Antwerp 5.21; on Paris 5.21; on Itio 30.500 and 30.600.

Respecting the specie shipment per Boyne nothing certain was known beyond £50,000 sterling said to be already engaged. No Bonds go forward.

Messrs. Bracht and Rodius took leave of their friends on 'Change to day. They go to morrow in the Boyne. Nearly 100 passengers leave in this steamer.

We learn from an English gentleman just returned from San Pedro that the camps up there are in splendid condition, and the flocks and 'rodeos' in good order.

There was much said on 'Change to-day about Mr. Michael Nazar's letter to the Governor announcing that the tradespeople had given notice that on, and after 20th they cannot supply the carcel with meat, bread &c.; such Municipal bankrupty was never before known, and shortly the contracts with the Hospitals will be thrown up.

Mr. John Leared of Montevideo was welcomed on 'Change to-day.

Another sale of hides in Montevideo was reported to-day, 10,000 hides saladero Montevideo at 85.

At the South market to-day 26 carts entered; 7 carts splendid wool sold at 90 to 95; 4 carts at 74, and 8 carts at 67; some lambs' wool 63 to 64; dry hides 3,000 at reserved price. 1,400 arr' wool at 68.

Mr. Barker Davis who has just returned from the provinces was welcomed on 'Change to-day.

Mr. M. P. Betts, resident Engineer and General Agent of the Public Works Construction Company, arrived down to-day with Mr. Goschen of the Legation in Silex. Mr. Betts we hear gave a splendid ball at the railway station at Concordia previous to his departure.

Great satisfaction was expressed on 'Change at the peaceable termination of the elections yesterday. All praise the conduct of the Government in bringing to bear upon the politicians a force sufficient to maintain order. Of course, as regards the result, opinion was as usual most divided.

On Friday the National Government published a decree ratifying the transfer of the Tucuman Railway contract by Messrs. J. Tolfener and Co. and Mr. Charles P. Lumb to Don Jose Tolfener, conditioned on the guarantee of Don Jose Ocampo, and the deposit by Tolfener and Co. and Lumb of one hundered thousand patacones, for the full and faithful performance of the contract. The works of the line will henceforward be carried on by Don Jose Tolfener.

On Saturday the judicial auction sale of the fine house property in Calle Maypu came off, 16x60, with two martillos that diminished the area. The place sold for 1,055,000 m/c. Mr. Hahn, purchaser. The property belonged to the estate of Don Jose Lastra, deceased.

It may interest the market to know Argentine outstandings in London on 1st March, 1874, as set forth in the Investor's Monthly Manual, perhaps the highest and most reliable authority on such subjects—

The following amounts have been paid in London for redemption drawing on River Plate stocks during last half year—

	£269,400

As will be seen by the above the National Government has to remit each half year to cover amortizations the sum of £129,800, and a further sum of £27,500, the half year's amortization on the Buenos Ayres bonds which the National Government by special arrangement has to pay; making in all £157,300 sterling, or say £314,600 sterling per annum for amortization, and the following further sums for interest on debt—

Interest on—	
Riestra loan, 6 per cent	£128,280
Public Works loan	342,960
Buenos Ayres loan, 1824	49,140
Do do 3 per cents	26,640

	212,860
E. Riano Government int. and amortiz.	18,220
Santa Fe interest and amortiz.	24,000
	£1.116,700

Thus the half yearly remittances of the Government in this market amount to say £558,350 and if we allow 7 p c on the Railways, Banks, tramways, capitals here we must add £303,220 per half year giving a total of £861,570, or say £1,722,140 stg., which is a large sum enough for the country and considerably more than that paid by the Empire of Brazil whose total Nat. debt stand so—

Brazilian.

5 p c, 1865	6,196,200
5 p c, 1871	3,346,000
Total	£15,371,200 stg.

The service of the Brazilian debt in London requires anually for interest and amortization only £902,762 stg. being £203,938 less than what the Government remittances of this market amount to annually.

The following is a summary of the wool business for the fortnight—

The confirmation of the more favorable news from Europe alluded to in our last report has made prices somewhat firmer, but no very important transactions have transpired, and we remark that buyers are operating with caution.

The demand is principally for the finer Havre qualities, stocks of which are small, when compared with the Antwerp classes.

GRATITUDE

FOR THREE YEARS I suffered from rheumatism, all remedies proving ineffectual. At last being confined to bed and apparently near my last end, I sent for Don Jose Charlier, 118 Calle Entre Rios, and after 4 frictions, was so far recovered in 8 days as to eat and sleep well, ever since July 30th 1871. It seems the same treatment cured Francisco Canepa, Calle Defensa, Barracas, and Juan Larruta, 147 Calle Mitre.

SAVINGS BANK
BANK MAUÁ AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very lrge amount.

These advantages have not hitherto been enjoyed inthis city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangall from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. Maua & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

It being an admitted fact, that "Money make money," the object of LA BIENHECHORA would not be better, since it opens a vast Saving Bank for the surplus or savings of the Public and by the proper employment of these smal gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband the mall means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHEORA DEL PLATA—an Argentine Company, whose own investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests asin any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

THE *STANDARD*—PRINTED and PUBLISHED EVERY MORNING at the *Standard Printing Office*, 118 Calle San Martin, Buenos Ayres, by the Proprietors and Editors, M.I.G. & E.T MULHALL.

COMMERCIAL NEWS.

April 1, 1874.

There was a slight reaction in the Cedula market to day, and prices improved somewhat on yesterday's liquidation. Still the stock rules heavy, and as the emission this month seems to have been fully up to the average the probabilities are that the closing prices of the stock th month will be under that of last.

The Ebro cleared to day. She took—

Specie for England.....	£153,000
" Montevideo...	46,000
	£199,000

The hide market to day showed the most movement. Some large sales of salted hides up the rivers, from 60 000 to 80,000 hides, sold at high prices, said to be 57 to 58r. Also 2000 matadero ox at 58, and 1000 cow at 60.

It appears that the committee named by the Provincial Bank to consider the question of advances on Cedulas has reported unfavorably on the measure.

Discount brokers report a scarcity of trade bills and money in abundance offering for them. Loans on stocks are very general, one of the private banks lent a large sum on Cedulas to-day at ½ths.

The total deficit in the liquidation of the months accounts here amounts only to three thousand patacones, and the broker who stopped yesterday it is said has ample property to pay all.

The news from Montevideo was not generally known on 'Change till a late hour; the deficit in the month's liquidations down there is something tremendous, as will appear by our telegram; one broker down there has stopped for $60,000 pats. The total reported deficit on the Bolsa there is 400 000 pats, a very sharp figure for so small a market; of course the Bolsa of Montevideo is brought to a dead lock, no business done to-day and liquidation of last month's accounts impossible to-day, and stands over. This shows now a very bad state of things; the Deuda Interna seems to have been the fancy stock that has caused all the ruin.

Mr. Saunders, English Insurance agent, leaves in the morning per Proveedor for Rosario for the purpose of appointing an agent there to represent the London and Lancashire Insurance Company.

The great topic of the day was the opening of the new building of the Provincial Bank. Long before 10 o'clock the bank doors were crowded, but only the clerks allowed in. At 10 o'clock precisely the head porter an Irishman, threw open the main door, and in walked the public. The scene reminded us much of the raising of the curtain at a theatre, for as the door opened there were the clerks at their posts and apparently as busy as if it was three o'clock in the day. Mr. Sala, the head cashier, was enveloped in gold piles of ounces, condors and Napoleon, and he and Mr. Diaz busily counting gold, perhaps for shipment in the Ebro. Further on we peeped into the 'Letra' window, and found Mr. Manrico busily occupied explaining to his fellow clerks the difference in a legal point of view between a Letra and a Pagaré. Mr. Edward Madero (ne Wood), perhaps the most active member of the Board of Directors, was walking up and down the hall reading the STANDARD, whilst our friend Mr. Michael Cuyar was down at the end of the hall where his office is located, explaining to a crowd of young deposit clerks the mythological stories of the gods and goddesses on the top of the roof. The scene was indeed an amusing one—but a short one, for in walked a Basque woman to deposit 20,000 m/c. Then followed the Bolsa liquidator, Mr Jacobs, who presented a cheque to the metallic clerk. In a moment there was order in the hall; the hum of voices and jocund laugh subsided, and nothing was heard save the click of the gold or the rustle of new bank notes. Away out at the hall door stood the mighty Lee, with sledge in hand, trying to open one of the massive bronze doors. The lock last night, it seems, was all right, whilst this morning nothing would open it, and merchants passing down the street looked in at the open door to watch the porters fly about and scour the tiled floor.

The *Tribuna's* article on yesterday's liquidation was the theme on 'Change: it is merely a reprint of what we have over and over again published in this column, namely, that there should be more guarantee to the public by Bolsa brokers. The matter is a serious one, and the fault lies with the Bolsa Syndicate. Possibly as the *Tribuna* has called attention to the matter something now will be done. The deficit yesterday was small, yet quite sufficient to inconvenience many parties. That Cedulas are over done in, there cannot be the slightest doubt; fully 200,000 pats. were taken up yesterday to pay for speculative purchases. The interest paide for the money is more than the stock itself pays, consequently the position of the market is artificial. As regards the emission of Cedulas being greater this month than last, we have not seen the balance and can as yet offer no opinion; but as the money market of the River Plate stands at present, no stock on the Bolsa offers inducement for investment, as the probabilities are that they have yet to go lower.

The shipment of gold per Ebro to-day is much talked of, and native capitalists are beginning to get alarmed, as they fear that the very revenue of the country will be insufficient to meet its obligations. The immense sums paid for ironclads, gunboats, muskets, fortress cannon and villainous saltpetre are condemned by all, and considered about the most ill advised step of the present administration. A national marine requires time to grow, and any ready made navy, no matter what the cost is but so much money thrown away, since we lack the Argentine sailors to command and manage these costly and formidable vessels. Moreover, these bellicose preparations have alarmed our neighbors, with whom it is our interest to live on the most peaceful terms. The feeling of the market is dead against the Government on this matter, and the great drain of gold at present is attributed more to the drafts for the ironclads than the exigencies of the market.

At the liquidation yesterday a point was decided that may interest our commercial community, namely, that a check on a bank after banking hours is not cash. Several parties aware of the squeeze went on 'Change with their check books, 70,00 Cedulas had to be sold cash to square accounts; 84½ was offered for the whole lot, payable by checks, which was declined. They were then sold in lots cash, and finally it was discovered that 10,000 were sold too many. The liquidator wanted to buy them back but there was no seller under 85. After much argument it was decided to subtract the oversold 10, 000 from the lot last sold, and the question was thus settled.

The National Bank began to-day to discount at 10 per cent. We hear that as the deposits in the bank are greatly increasing the Directors intend to discount more liberally than heretofore. Every good bill offered will be done, and the week's discounts instead of being half a million of patacons will probably run up to one and a half millions of pats. per week This is important; in fact, between the two banks discounting so freely it is probable that there will be no business paper left in the market for the private banks.

We find in all the Rio papers the whole question between the Gas Company and the Buenos Ayres Municipality published. Doubtless we shall see the same in the English papers.

We have received from Messrs. Alfred Jonas & Co. two weekly circulars from the Cape of Good Hope, which, owing to press of matter, we are obliged to hold over.

The engineers have left to survey the new railway from Mercedes to the city of Corrientes; the line will be 138 miles long. Mr. G. Furness is the contractor, with the government for the works.

After some 12 years' service as repartidor-in-chief of the *Tribuna*, Mr. Leguina has given up the post, and a new repartidor named under the new management of that paper.

Dr. Rawson, who during the Mitre administration so ably held the portfolio of Minister of the Interior, leaves in a few days on a trip to Europe, to recruit his health.

The farmers, estancieros, traders, &c., of the Baradero have sent into the Provincial Bank a petition, praying of the directors to order the local manager to receive the notes of the National Bank. It is certainly about time that this matter should be settled.

On Thursday and Friday the Bolsa will remain closed. Saturday will be a business day after 12 o'clock.

April 6th, 1874.

The news of very heavy specie remittances, per Boyne, gave a favourable turn to the market, and at the opening things looked very stiff. Some speculating people circulated all sorts of rumours about the gold on board. The STANDARD telegram only announced £200,000. Even the agents put up a notice on the board confirming this statement; but the news amongst the brokers was that the Boyne had brought

To Government	$200 000
To Santa Fe Government.	200,000
To Mercantile Bank.....	25,000
To various import houses.	50,000
	£175 000

This, however, proved all nonsense, and towards noon all the gold on board came ashore—twenty boxes consigned to his Excellency Basabilbaso and which went at once into the Provincial Bank. Many parties on 'Change stated that this is the balance of the City Improvements loan, and this was very generally believed, as Mr Aguirre and family are on board. Mr Williamson, of the leading firm of Milligan and Williamson, is also on board. All are in quarantine.

Some large advances made on Cedulas at ½, the stock valued at 75.

Exchange looks better; bills passed on England at 49½-¾; on Antwerp, 5.21; on Paris, 5.19.20.

The Boyne has had a fine run out; she entered Montevideo at 10.30 p.m. on the 4th of April. She landed 291 passengers at Rio, and £276,000 in sovereigns. The Nova was at Bahia on the 29th March; all well.

The screw steamer Gomos, with cable for the Brazil and Platense Company, was to leave St. Vincent on the 19th March for Rio.

Mr. Saunders has returned from Rosario, having succeeded in obtaining in that city one of its most respectable firms to represent there the London and Lancashire Fire Insurance Co.

The steamer Loguisamon cleared to-day. What with freight and subsidy we hear she earns seven thousand pats. a trip. Two more steamers for the same company are now being put together.

The news this evening from Paraguay is that the Government up there has cancelled the Argentine Consul's exequatur. We give the 'bolotin' in another column.

The week has opened with the arrival of two hundred thousand sterling for the Government, which is a help to the market, and more still has to come out on the same account. The Boyne entered port this morning, having stopped in Montevideo only a few hours. We suppose the gold on board did this. The news by the Boyne is rather favorable, and, according to our telegram, there is a probability of the Bank rate in London being reduced, which means much, and may probably lead to the realisation of the Oriental loan, and the launching of the Rosario Railway. In fact, some of the most experienced brokers in this market offer to bet that before June the Oriental loan will be done.

The Sorata's news came by telegram from Pernambuco to Rio, and was brought down to the Plate by the Boyne. The news will be found in our telegram.

The mails from Montevideo were most important. The *Revista Mercantil* publishes a long article on the Bolsa and the scandals of April 1st. It gives a long and detailed account of all that was done to arrange the liquidation and wind up the Bolsa liabilities of Messrs. Essing and Lima. First of all, there was a kind of subscription got up amongst the following parties to square the matter:

Araucho & Frias	$5000
Butler & Frias	5000
Varela & Arrue	2000
Anderson & Farrell.....	5000
A. Hoffmann.....	3000
Tomas de Urrutia.....	2000
J. Davison.....	1000
A. S. Agustini	1000
Paulier Hnos.....	1000
Noceti & Arzeno.....	1500
Enrique Platero.....	1500
Latorre & Cesar	1500
Winterhalten	500
L. B. Scheiner	500
Ricardo La nova	500
Oliver & Veiga	1000
	$32,000

It seems the total liabilities of Essing and Lima, on the Bolsa, amounted to $f.65,150, but after fruitless efforts the subscription amounted to nothing, and Mr. Anderson, of the firm of Anderson and Farrell, proposed that instead of this mutual relief fund all parties creditors and debtors of Essing and Lima liquidate at a fixed figure of 68½. Finally this was adopted, and the following paper signed—

"In Montevideo, on the 1st of April, 1874, the brokers of the Bolsa being assembled to arrange the liquidation of March, in consequence of the suspension of Essing and Lima, resolved that all creditors of the firm balance their accounts at the rate of 68½, and that the debtors of the firm balance their accounts at the same figure, 68½, and in witness whereof they sign this document.

Anderson & Farrell,
C. M. Bond,
A. Suarez,
Paullier Hnos,
T. de Urrutia,
A. S. Agustini,
Julian Alvarez,
Brown & Frias,
A.B. Blandin & Co.
Jorge Davison,
Varela and Arrue,
Oliver & Veiga,
G. R. Gepp."

It seems that a portion of the once famed Buschenthal quinta has passed into the hands of Essing and Lima for Bolsa differences, and they in turn have mortgaged it to a German house. Although the Bolsa differences are only put down at 51,500$f. the house has failed for a million of patacones, and people say that off the Bolsa everything is secured; if so the failure is most trifling, but on the Bolsa here it is believed to be a most disastrous affair, and some parties are said to be in to the extent of five hundred thousand pats., which seems an exaggeration.

At foot hereof will be found the Hypothecary Bank balance for March. It will be seen that the total emission for the month was only 250,000 Cedulas, quite a small amount. The following table will show the working of the bank—

Cedulas in circulation, A:

In December	1873	10,891,700
January	1874	10,843.900
February	"	11,120,800
March	"	11,370,000

The total amount of Cedulas annulled 817,350 pats. Mortgagors must take note that the interest on their mortgages must be paid on or before 15th inst.

A leading export merchant has called our attention to the reported sale of from 60 to 80,000 salted hides which we published the other day, and which we received from two well todo hide brokers; on enquiry we learn that the total sales in these days of salted hides only sum up to between 30 and 40,000 hides.

Mr. Ebbeke held yesterday an auction in the square between the Callao, Rio Bamba, Santa Fe and Charcas streets, and realised the following sales—

First house ocupied by the French Minister Calle Charcas 503 and 505, 34 by 71 varas, for $440,000 buyer Mr. Nicanar Mendez for Mr. Henry Schneidewind.

Second house Calle Callao 196, $65,500 buyer Mr. John Cowes.

Third do. do. 192/4, $60,000 do Julio Clazabal.

Fourth do. do. 190, $57,500 do Dom Yanelli.

Fifth do. do. 188, $60,000 do Silva.

Each of these four houses 8½ by 30 varas with three rooms, kitchen etc.

Another small house Calle Charcas 511, 7 by 26 varas with three rooms, kitchen etc. at $56,000, buyer Mr. Arenales.

The balance sheet of the Provincial Bank for March is not yet out. The specie on hand in the treasury, we hear, was two million pats., and in the Oficina de Cambios about seven millions.

The last statement published of the Banco Hipotecario of Montevideo gives 355,124 pats as the total issue of Cedulas in circulation in the Montevidean market. It seems the Cedulas never took much hold in the Mount.

Many of the creditors of Montravel's Caja de Credito Bank are anxious to know why the affairs are not wound up. We suppose the hitch is the courts.

The hide question in Entre Rios still continues, and it seems the various comisiones will keep the hides up there for another month or so, owing to the interminable question about marks. Money at all the Entre Riano towns is very abundant; shopkeepers as busy as possible. It appears that some 800,000 pats. have been paid out by the National Government to the soldiers; no wonder money is easy in Entre Rios.

Captain Wright, of the Chupat schooner Irene, has arrived up from the Welsh colony with a cargo of butter, hides, skins &c. We hear that Messrs. Rooke and Parry have opened a house of business down there; this is rather good news, and shows that things are going ahead down there. We hold for to-morrow our correspondent's letter from there; the advices are most favorable.

Discount brokers report money plentiful enough for first-class paper; all the banks discounting, all the first-class trade bills offered, and in absence of that advancing on Cedulas.

The amorization of Nat. Bonds will take off the market about 180,00 bonds, which will be a great help to this market. The amortization, it is thought, will be done at 80-81.

The following is the balance-sheet of the Hypothecary Bank for March 31, 1874:—

April 7th, 1874.

The Cedula market gave way completely to-day, one of the leading native brokers entered the ring as a heavy seller, and this combined with the very unfavorable tone of the letters from Europe at once gave things the turn, confidence in the River Plate seems to be greatly disturbed abroad, and we have yet to learn by the exchange market how far these alarms abroad will affect foreign capitals in this country. The immediate cause of the drop in Cedulas is the heavy bearing operation of one of the first of our Bolsa brokers. Small holders have taken fright and as is ever the case in a declining market, loans to-day on the stock were very difficult.

Exchange looks awkward, and some brokers report no bills to be had at 49½, however the current rates seem to be Bank paper 48¾ and a large amount passed. Commercial 49½ to 49¾. On Antwerp 5,20 to 21. On Paris 5,19 to 20. On Berlin 4,16. On Genoa 5,22.

The sale of 2 cargoes of tallow in the rivers is reported at 14 r.

Capt. Keer was warmly welcomed on 'Change; he sails on Saturday and will take a large number of German residents.

Mr. Alfred Lumb was also fairly enveloped in friends, who were delighted to see him back again in the Plate. Mr. L. has during his travels spent some 2½ months in Egypt, and ascended to the top of the great Pyramid of Cheops, rambled through the once world-wonder Temple of Karnak, spent some days at Luxor, and in fact has, we believe, seen more of Egypt and its wonders than any other banker or merchant of the Plate. Mr. Charles, of Montevideo, accompanied Mr. L. in his Egygtian travels. Query, did they find the Pyramid with the wonderful inscription *I am all that is, all that has been, all that will be, and no mortal has lifted my veil.*

The National Bank discounted the large sum of $300,000 pats, say ten millions currency. The Provincial Bank discounted yesterday 8 millions.

There seems to be no doubt about the clerk of the War Office, having absconded, some say 80,000, others 120,000 pats. A young man connected with the clerk, it is said, committed suicide to-day.

A large sale of wool in the Plaza Once is reported, 20 carts belonging to Mr. Kearney, at reserved price—said to be 77.

Mr. Michael Walsh, the well known lime merchant, has been elected member of the Bolsa.

To-morrow at 4 p.m. there will be an auction at the Mortgage Bank. See notice.

A site in Flores, near the market, sold to-day, 20x70, for 8,000 m/c. Mr. M. Rom, buyer.

More able-bodied immigrants: 600 arrived to day at Montevideo in the Europa.

Mr. Turner does not lose much time about starting the works of the Campana railway. He went up yesterday to see how the land lay, and is back to-day. He is assisted by Mr. Curtis a gentleman of great railway engineering experience.

The foundering of the favourite steamer Rio de la Plata in this port was the first news to-day. She had just come up from Montevideo crowded with passengers, and only last week came out of the dry dock at Montevideo. It appears that she went on a pontoon anchor, and has struck in a place not considered dangerous, inasmuch as many years ago the Menay went down in the same place and was got up.

The Boyne letters were delivered this morning; they all speak of the alarm in England about the dispute with Brazil; in our London letter will be found full particulars; the circular note of the Brazilian Government to the European powers it seems has been published in the European papers. As regards the news from Brazil, sovereigns have declined owing to large arrivals from Europe and the Plate. The Brazilian Parliament had not met on 1st April, as some of the papers here state, but meets on the 1st May, when the present administration the Rio Branco Cabinet will resign, and Baron Cotegibe become the Premier. Dr. Octaviano, who is said to be dying, has left for Europe, and Baron Rio Branco as soon as he retires from office will also make a trip to Europe. The Cotegibe Cabinet, according to the papers, will insist upon an immediate settlement of the Paraguayan question, and all matters pending be at once settled—nothing left in statu quo.

Advices from Rosario are important as regards land sales up there. A small piece of estancia land at Desmochado Centro, near Rosario, 800 varas front by 1½ leagues deep, for two thousand patacones. Another small piece of land, Luduoña, 146 varas front by 400 deep, for 1250 Bivianos. A site in Calle Progreso between San Juan and Mendoza, 24x70 deep, 8,000 pats. An estancia in department of Rosario, 6½ square leagues, for 37,500 pats. A small site at corner Calles General Lopez and Buenos Ayres, 1,300 pats.

Mr. Robert Crawford, representative of Messrs. Waring Brothers, Mr. James Lowry, and several other distinguished fellow countrymen, leave to-night for Montevideo.

The following important advices we have received from Rio per Boyne—

"The new tariff of imports will shortly be promulgated and will go into force July 1st next Among the principal changes will be the reduction, as respects the province of Rio Grande do Sul, of the more highly taxed articles, to put an end to the extensive smuggling which is carried on from the republic of Uruguay into that frontier province."

The news from Zarate to-day is most unfavorable; it appears some terrible disease has broken out amongst the cattle on General Gainza's estancia, and several of the peones have died from skinning the animals; full particulars will be found in another column; the matter ought to be looked to in time.

We hear that neither the steamer Rio de la Plate, nor her cargo were insured; the cargo represent about 20,000 pats., but does not suffer as only one compartment has filled.

Mr. Naylor, formerly one of the managers of the London and River Plate Bank, was welcomed on 'Change to-day by his numerous friends on his return from Valparaiso; he leaves we believe for Europe in the mail.

There was very much said on 'Change to-day about the accident on the Southern Railway. Many parties attach blame to the custom of leaving the top of the culverts open; this is the second or third accident of this kind that has occurred on this line from the same cause; we have no doubt that so excellent a manager as Mr. Cooper will see the necessity of adopting some plan to remove the danger. Mr. Green's peon we understand is very severely hurt, and in the British Hospital.

The President was expected up to-day from his Island home Carapachay, but didn't come; there is a high pile of documents awaiting his signature, and people complain of the extraordinary delays now at the Government House.

April 8th 1874.

The fall in the Cedula market continues, and to-day was a species of liquidating day on the Bolsa, most of the bulls took fright and closed up everything for the end of the month, thus of the 800,000 Cedulas sold for end of month fully ⅓ the were mere sales to close transactions.

At about 3 o'clock to-day, after the great excitement in the ring was over, many brokers thought that Cedulas had touched bottom, and were about to recover. For an instant the stock looked better, but it was only for an instant—fresh bona fide sellers entered, stock for cash and for end of month was freely offered, and prices again fell off.

The exchange market presented a novelty; the banks yesterday were drawing at 48¾ and 48⅞, and to-day, although the first class bills were scarce at 49, the banks began drawing at 49, and actually drew for a fair amount at this rate. The general explanation given for this is, that the banks want to take, and, therefore, wish to keep up the rate, which they find falling fast. It was said on 'Change that the Boyne will probably take a heavy specie remittance. Continental rates rule about the same, and nothing whatever done on Rio.

In saladero hides nothing done; the price for river hides is about 55½. Two cargoes of tallow sold at 14 rls., which, with the two cargoes of yesterday, make four cargoes of tallow sold within the last two days.

It was announced on 'Change to-day that quarantine in Montevideo on vessels from here is abolished. The Saturno will sail for Montevideo on Friday night.

The amortization of Nat. Bonds was an important event of the day; the following were the bids—

The Bank balance, or at least an extract from it, which appeared in some of the papers this morning attracted notice. The cash on hand in specie is 2,434,377 pats. and 51,387,241 m|c. and the specie in the Oficina de Cambios $f.5,632 725. It must necessarily interest the public to compare these figures with those of the same month last year. The Oficina de Cambios held in gold on 31st March, 1873, the sum of 16,623,798 pats The price of Cedulas on 31st March, 1873, was 97⅜, and Nat. Bonds 81½; exchange 48½. The issue of Cedulas on that date was—

A financial article in Sunday's *Nacion* has attracted so much attention on the Bolsa, that we think it may interest the commercial community to extract from it. The writer heads his article "100,000 emigrants at 1000 pats a head, gives one hundred millions". "It is now about a year since a crisis began in this market which was attributed to wool, or to land speculations or Cedulas later on came the closing of the port, then the Entre Riano war; others attributed the crisis to the enormous expansion of trade, the overtrading of the English, and the extravagance of living. These causes now have for the most part disappeared, yet the crisis continues, will continue, and has become chronic. The real cause of the crisis seems to be the limited production of the country and the gigantic increase of population. Our population in 1869 was but 150,000 inhabitants, and to-day is 300,000 inhabitants, and consequently the demand for paper money is greater, the consumption greater. This emigration has necessarily to remit small sums to Europe, to pay passages, help their families, which I average, at say, £20 per annum, and which foots up to the large sum of two millions sterling per annum, and which 2 millions sterl. are taken from the market and felt by it. If to this we add the amounts that have to be remitted for railway and other materials for public and private works going up on all sides, we find the true key to the crisis, which, instead of diminishing, is increasing. Emigration increases and will increase so long as the demand for labour continues, what we have begun we must finish and it is impossible for the country to go back; clear it is that as our emigration increases we must increase our capital; we require to import at least 2,000,000 sterl., our hands are employed not merely in articles of productive export, but also in public works such as sewers, prisons, pavements, banks, hotels &c. and we must not consider only the emigrants in Buenos Ayres but in Azul, Rojas, Patagones and Rosario; they also remit to their friends, which I estimate at £20 per head, which gives a total of three millions sterling. We don't require any great specie capital, only enough to keep our balances right; and it is not a crisis now so much as a change of opposition of the market that I note, and the real remedy is to authorize the bank to keep up its circulation on a par with our emigration—say 100,000 emigrants per year. The Bank capital is 20 millions; it should issue four times its capital, and issue specie notes or paper as the commerce requires, and if possible do away with the two currencies. To guarantee the emission the Bank holds 10 or 11 millions in National Bonds, and could easily open a credit in London to draw for four or five millions. If the Government does not give the Provincial Bank authority to emit to meet the increasing emigration, then of necessity the supreme law will provide for the emergencies by giving the right of omission to all the private banks. This matter is of the most urgent necessity, and should be dealt with The National Bank, with 2½ millions National Bonds could also help the cause by opening a credit abroad for one or two millions sterling to draw against, which would prove a moral and material back to our paper currency." The article is signed 'J. C.', and is attributed to the pen of a well-known broker, who thoroughly knows the market.

Mr. Burton, Government inspector of telegraphs, has arrived back from Entre Rios; he visited Concordia, the Eastern Argentine Railway, a work which he speaks highly of, and Salto, where he went over the Santa Rosa Railway as far as Paloma; he reports the tramway of that town stopped for some cause or other.

The questions between property holders and the City Improvement Committee for damages caused by the reformed works are a terbitration in one case where the Engineers block up the entrance to a large corralon on the Passo Colon, the arbitrators have granted the owner of the finca the sum of two hundred thousand dollars m/c indemnity.

April 9th, 1874.

There was a better feeling on 'Change to-day All the heavy business of yesterday having closed most of the operations pending. brokers were anxious to begin afresh, and as there was an idea that the stock within the last few days was oversold many knowing ones began buying. The arrival of £200,000 stg. in the Lamport & Holt steamer Gassendo for Rosario being the import of the Santa Fe loan less commissions and interest, was also a good feature, and the very favorable produce news also helped the market. In speculative circles however the real news of the day was that the Provincial Bank has at last resolved to send its bonds and stocks for sale on the London market, and we even heard the name of the party who goes to Lonpon to negotiate the stocks; thus there can be no longer any doubt on the subject, and not only do the National Bonds go forward, but also all the Provincial Bonds for so many years held by the Bank. It is possible that this very important news may turn the exchange market, in fact some parties, to-day on 'Change said that no more gold will leave this country for some time. The telegram from the Mount stated that there was favorable news received from London about the Oriental loan, and good prospects of its being launched.

Market closed buyers. All the chief brokers on 'Change to-day bought very freely.

Exchange rules at 48¾ bank, and 49½ 49¾ commercial. It seems that it was an error to say the banks drew at 49, the error however originated in a bank parlour. A large amount of Chilian bills we hear have come round to the Italian Bank here, but these bills are not offered in the market; the bank taking some for its own account. The rate on Antwerp 5.20-22; on Paris 5.20; on Montevideo ¼ to ½; on Berlin 4.16.

Through a typographical error in this morning's issue we were made to say that the specie in the Oficina de Cambios is 5,632,725 pats., when the specie on hand in that office on the 31st was seven millions and a-half pats.

The Olbers, it appears, cannot get away before Saturday; her cargo is 1,000 bales and 54 pipes.

The Olbers, Galatea and Boyne, will all be out of quarantine to-morrow. The minister has reduced quarantine against Brazil to 10 days, cargo discharged from steamer before expiration of quarantine has to remain in lighters 10 days.

The following is the latest produce telegram—March 19. Entre Riano wool sold to United States. Buenos Ayres wools no change; firm. Wool sales in London better.

The Flores tramway, it seems, has not as yet changed hands, and people want to know why?

The sale of a cargo of pitch pine reported at 42.

Some 400 strong workmen were landed to-day for Messrs. Newman & Medici's City Improvement works to work in tunnels, having worked at Cenis.

The City Improvement Works will be publicly inaugurated next month. Messrs. Newman and Medici are now landing an immense quantity of materials, machinery, &c., and the Water Board, we hear, has now on the way out some 20 cargoes of materials.

The auction of splendid household furniture at Dr. Ayer's residence, Calle Florida, comes off to-morrow (Friday).

The La France entered late, and landed her passengers at about half past 3 o'clock.

Mr. Jeppenner, the well-known barraquero, leaves on Saturday, as will appear by notice. His barraca business is liquidated, and he leaves powers with Messrs. Clausen and Mehr to represent him during his absence.

All the papers connected with the transfer of the Campana Railway concession by Mr Matti to Messrs J P Boyd and W Thompson, local directors of the Buenos Ayres and Campana Railway Company, have been submitted to Government and approved. The works of this line, under the direction of Mr Turner, C.E, will be pushed ahead, so that next year we may hope to go by rail to the new port of Campana.

The Fronchmail steamer Gironde sails to-morrow. She is a fast steamer. Her outward cargo has been landed and deposited at the new bonded warehouse in Paseo Julio, between Calles Cordoba and Paraguay.

To day at the old Custom deposit there was a large sugar sale. It was well attended, but we believe prices low.

Mr Terry, the well known escribano of the Tribunal de Comercio, advertises for a large sum of money, which through negligence of his clerk was left in a confiteria.

The National Tramway Co. publishes the following returns for March—

The Provincial Bank discounted yesterday 15 millions currency, and we heard from the discount brokers to-day that for first class trade bills money is abundant at 10 per cent.

The courts call for the heirs of T Mahon and Mrs. B Nolan, to present their claims for the distribution of assets.

Mr. Amorim, manager of the Maua Bank in this city, leaves in the Montevidean steamar tomorrow on route for Europe; Mr. Ernesto de las Carreras succeeds Mr. Amorim in the management of the Bank; Mr. C. has a long experience of this market, and is eminently qualified for the post.

The stock market opened this morning very firm, but in the liquidation closed at a fall and weak; the short reaction in the market shows its great debility and the strength of the current which is against the Cedula. Some of the best orokers entered yesterday as buyers, and during the early part of to-day continued buying, but the stock came offering from all quarters and a well known Cedula man availed of yesterday's reaction and sold heavily to the best buyer. Perhaps the best news to day for the market was a letter received from London by one of our leading brokers, which gave hopes of the Montevidean Loan being at last done; we have no advices, but there were on 'Change to-day many Montevidean merchants who said that the feeling down in Montevideo is that there are too many hitches about it.

The exchange market is much watched, and native brokers at last begin to see that it is exchange after all that rules this market. Bill were passed to-day at 48¾ bank; 49½ 49¾ commercial. Cash to-morrow. Bills for Boyne on Antwerp, 5.21-22. On Paris 5.20. A large amount passed.

There was a good movement to-day in saladero produce. A cargo of hides at Tuyo sold at 56; another cargo at Villa, Colon, ox, at 56, and a cargo of cow hides at Uruguay, at 58. In Montevideo to-day, two cargoes sold, 10,000 saladero wenonyma at 34, and 12,000 at Guavira, at 8. his shows five cargoes sold to-day. This ought to help exchange; the rate on England, in Montevide, keeps up well.

It was announced to-day that the steamer Karnak will not come up as the Peruvian ports are still closed against B. Ayres. About 300 tons cargo remain over.

The auction at Dr. Ayre's to-day was largely attended, and a brilliant success. Everything sold at splendid prices.

This was a day of general leave-taking on the Bolsa. Half the German barraqueros of this market leave to-morrow in the Hamburg steamer Montevideo. Such a barraquero hegira we never before noted. Messrs. Beckhaus, Clausen, Larsh, Pfeiffer, Jeppener and others all took leave of their friends to-day. We hope to see them all back again in about 6 months.

The Saturno, this evening, takes down a large crowd of passengers to Montevideo; the mole was crowded the whole afternoon.

The French mail steamer Gironde cleared to-day; heavy mails and large list of passengers; she also took specie.

The advices for salted hides per Sorata appear not to be so favorable as we were led to suppose; at least amongst the hide brokers there was something said about a cargo of new hides on the Continent bought cheap here and which has given nothing much.

A very important estancia transaction has been just effected in the market—a square league and a half of prime estancia land in the Partido of Mercedes, of Dr. Gaete, of this city; has been rented by Mr. Ed. Casey for 5 years at an annual rent of $140,000 m|c. The estancia has 20 000 sheep which the tenant buys at $35 m|c per head, and 1000 head of horned cattle at $130 m|c. The estancia is one of the finest in the country, has a fine azotea estancia house, some 20 puestos, immense galpones, large montes and magnificent alfalfares. The business is perhaps one of the most important that has been done in this market for some time.

The National Government has just published a new decree opening a credit for over 800,000 pats to close up the account for armaments, the brokers say that the amount is due to one of our private banks. The chec
